BARRY-BOND MOUNTS

Versatile, low cost elastomeric isolators protect against shock & vibration and reduce structure-borne noise in vehicular and industrial applications.

APPLICATIONS
- Engines
- Operator compartments (cabs)
- Radiators
- Pumps
- Compressors
- Machinery

FEATURES
- One piece bonded construction
- Compact size
- Rebound feature formed during installation

BENEFITS
- Easy, low cost installation
- Cushioned snubbing in all directions
- Consistent performance
- Multi-directional vibration isolation
- Noise attenuation
- Failsafe when used with recommended snubbing washers

LOAD RANGE
- Six sizes with axial load ranges from 75 to 2,100 lbs. per mount

Barry-Bond Mounts are designed for multi-directional vibration isolation, shock attenuation and noise reduction due to structure-borne vibrations. These one-piece, failsafe mounts are easy to install and provide consistent performance.

Environmental Data
- Natural Rubber elastomer has an operating temperature range of -20°F to +180°F (-30°C to +82°C).
