RE: Request for RoHS Compliance Statement

To Whom It May Concern,

This letter is in response to your request for a RoHS compliance statement.

As defined by the scope of Article 2 of the Directive 2002/95/EC of the European Parliament and the Council on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS), this scope applies to “electrical and electronic equipment falling under the categories 1, 2, 3, 4, 5, 6, 7, and 10 set out in Annex IA to Directive No 2002/96/EC (WEEE) and to electric light bulbs, and luminaries in households”. Since our products are not immediately classified under these categories this Directive does not directly apply. However if your product is classified under this Directive and you need further assistance you may contact our environmental office at 617-787-1555 ext.426.

Best Regards,

Barry Controls
