

## **HAZARADOUS MATERIAL INFORMATION STATEMENT**

To the best of our knowledge and belief, EMKA Products do not contain nor do we use any banned hazardous or toxic materials in the production of our products. Our manufacturing facilities, processes and quality systems are in compliance with the restrictions of 2002/95/EG (RoHS) and 2002/96/EG (WEEE) of the European Parliament.

Materials such as lead, cadmium, mercury or chrome VI are not present in our products. We do not use PBBs or PBDEs.

Yellow, olive or black chromate finishes for surfaces may be provided in certain cases where specific customers formally request such treatment, Chrome VI (hexavalent chrome) is contained in these colored finishes.

This statement is offered as information only. No warranty, implied or otherwise, is associated with this information statement.
